MAKING UP THE BLOCKS

Block 2

Block 2

Both blocks are made up the same way, the red and white fabrics are swapped between blocks 1 and 2

Referring to the diagrams, lay out the fabric pieces for each of the blocks

You need to start out, by joining the triangular fabric pieces together in pairs to make a square

Once you have joined together all of the triangles, lay out the squares as in the block diagram

Sew the squares together in rows and then sew the rows together to complete the block

You will need to make five of block 1, and four of block 2

When all of your blocks are complete, lay out your blocks as in the main diagram

Stitch the blocks together in rows and then sew the rows together to complete the quilt top

Next add the border fabric pieces to either side of the quilt top, and then to the top and bottom

Your quilt top is now complete

Sandwich the quilt top, wadding and backing together

Quilt by hand or machine, and add binding made up from the border fabric using your preferred method
